INFORMATION FOR SPARKLAB SCHOOL AND GROUP VISITS

SUPERVISION OF STUDENTS/CHILDREN

Group supervisors are responsible for the supervision of students and children while in the Museum and *SparkLab* and should remain with their students at all times.

Please allow only small, supervised groups of students into the Museum shop.

MOVING THROUGH SPARKLAB

Schools will move through the *SparkLab* exhibition for a 1hr 15 min hands-on experience. There are three zones within the exhibition, as well as programming experiences. Schools and groups can spread out within the exhibition and move through the zones in any order and at their leisure.

An itinerary will be sent to you prior to your visit. Please follow the times on your itinerary.

We encourage Primary Teachers to divide your students into small groups with an adult allocated for each group. As the students explore the exhibits, the adult can model the learning process, such as reading out the text, asking open-ended questions, testing out ideas, communicating their observations, making changes to what they are testing, and sharing possible explanations.

Moving around the Museum

Groups are asked to use the stairs or escalators when moving between floors. The lifts can be slow and busy, and groups are advised to avoid the lifts unless necessary.

Queensland Museum is very popular with families and tourists and we kindly ask students/children to please keep noise levels down and consider the impact of their behaviour on other guests.
